Class IV

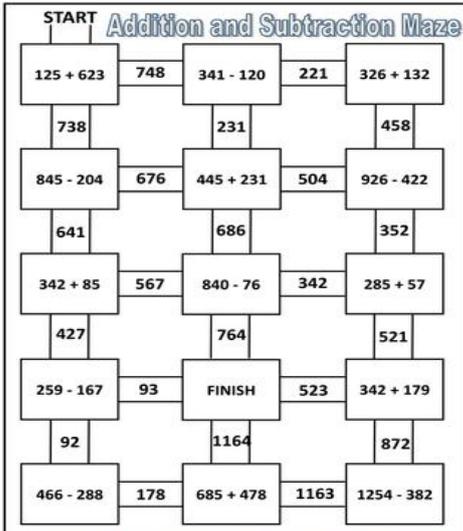

Dear Parents,

Warm Greetings!

Summer vacations are indeed a time to rejuvenate, reinvigorate, revive and explore new domains. However, looking at the present predicament of the pandemic, it is essential that we encourage and support our children to brave the lockdown and positively deal with the quarantine period. Keeping the same in mind, our teachers have designed a stress free, productive and fun filled Holiday H.W. which will engage the children in various hands on activities/projects, keeping the pen and paper at bay.

We have also set forth some tips for the parents to make this quarantine period a fruitful experience for the kids:

- Encourage your children to maintain personal hygiene by washing their hands frequently
- Encourage your child to nurture a hobby.
- Motivate your child to do random acts of kindness, e.g. plant something or feed a bird.
- Let your child spend time with their grandparents and hear their life experiences.
- Engage them in board games like Chess, Scrabble or Pictionary to enhance their concentration and vocabulary.
- Reward your child's creative efforts, guide and support your child by boosting his/her confidence.
- Limit the screen time.
- Relive old memories with your child through photo albums and reminisce over past moments, stories and experiences.
- Encourage healthy eating habits.
- Spend time watching age appropriate movies:
Suggested movies: 1. ZOOTOPIA
2. INCREDIBLES
3. MATILDA
- Engage your child to do simple tasks like organising their cupboard by learning to fold clothes and piling them up neatly.
- Ensure that the children revise the video tutorial lessons shared in the months of April and May to ensure that they stay in touch with their academics.
- Let your child develop positive association with books by encouraging him/her to read at least for half an hour everyday .
- Let your child develop his/her writing skills by practicing a page of English/Hindi/Bengali writing every alternate day.
- Along with the above, help your child complete the following hands on activities subject wise:

	<p>3. Addition and subtraction maze</p>	<p>Students need to draw and solve the maze on an A4 size / Drawing page.</p>	 <p>START Addition and Subtraction Maze</p> <p>125 + 623 748 341 - 120 221 326 + 132</p> <p>738 231 458</p> <p>845 - 204 676 445 + 231 504 926 - 422</p> <p>641 686 352</p> <p>342 + 85 567 840 - 76 342 285 + 57</p> <p>427 764 521</p> <p>259 - 167 93 FINISH 523 342 + 179</p> <p>92 1164 872</p> <p>466 - 288 178 685 + 478 1163 1254 - 382</p> <p><i>Can you find the correct route through the maze?</i></p>
<p>Science</p>	<p>1. Photosynthesis craft</p> <p>2. Food Chain plate</p> <p>3. Building a house</p>	<p>Create a craft with your imagination on the process of “Photosynthesis”.</p> <p>Students need to make a Food chain plate by drawing picture and pasting them on thermocol plate or paper plate. If no plates are available at home they can cut a page in the shape of a circular plate and paste the pictures to complete their food chain. Picture reference given.</p> <p>Students need to make a model of a house either kutchra or pucca as per their liking. Picture references given.</p>
