A GREEN DREAM

Happy students, hardworking teachers and excellent infrastructure — Asian International School is striding towards perfection with confidence and zeal

Built on a 10-acre sprawling green campus with over 1,00,000 square feet of academic facilities, Asian International School believes in creating a centre of knowledge and excellence. The school began its journey in 2012 and is all set to send out their first CBSE batch in 2017. The number of students on its rolls has touched 1,000 and is steadily rising with students from Howrah, Dankuni, Uttarpara, Konnagar, Panihati and even Calcutta seeking admission for wholesome education and development.

The school's mission statement is "Education for Life" and it strives towards the goal by providing a balanced environment for academic as well as co-scholastic growth.

Experiential learning, spiritual development and practical skills for living such as concentration, self-discipline and compassion are also on the school's priority list.

The campus provides various facilities to the students. The education zone has smart classrooms, a well-stocked library, fully equipped laboratories, learning lounges and a colourful Montessori section. The athletic zone boasts playing and practice grounds for cricket and football, badminton, basketball and tennis courts, multi-lane running track, fitness centre and games hall for table tennis, billiards, chess, martial arts etc. The activity zone has rooms for music and dance. There is an art zone, sculpture zone, yoga centre and also an open theatre.

Asian International School claims to be a "green" school — the thrust is on setting up environment-friendly facilities and nurturing eco-friendly values in the students.

Being the founder principal, I have been part of the school from the start. The experience has been challenging. I have seen the school grow from scratch. The student count has risen and is quite impressive. We try to strike a balance in our student-teacher relationship. Our motto is individual care and we work towards that. We have a sprawling campus and we try to give equal importance to academic and co-curricular activities. We are coming up with a sporting arena and an auditorium. We're also getting a CBSE affiliation for our higher secondary classes.

— **Joyita Majumder**
Principal

I have been with the school for the past two years and it has been a wonderful experience. I came in as a coordinator and in six months, I was made the headmistress. I love children and love being in charge of the junior section. The parents' expectations are really high these days. And we have several first-generation learners. Since it is an international school we always look for innovative methods to make classes more interesting for our students. We keep introducing different types of fun activities like fancy dress competitions, sit and draw etc.

— **Bipasha Das**
Headmistress

The last four years with this school has been great. We have been very innovative and brought about quite a few changes in the computer science department. We have ample freedom to work freely and carry on with different projects. The infrastructure is good.

— **Anita Mishra**
Computer science

I have been with the school for the past seven to eight months. It is a new school. We experiment a lot. We are asked to be innovative. We have a lot of communicative activities. There is a drama club. We also conduct radio shows and interviews which helps the students enhance their communicative skills. The infrastructure is great and people here are very helpful.

— **Madhumita Chatteraj**
English

TEACHERSPEAK

I've been a part of the school since 2014. It has been a wonderful experience. I love being a teacher. Every day is a learning process for us. Academics is not the only necessity in building up a career. We give a lot of importance to holistic development.

— **Geetanjali Pradhan**
English and SST

It has been more than three years since I joined this school as a teacher. It has been a good experience. I am also the coordinator of the science section. The school gives us a lot of independence and liberty to work the way we want to. Students too are very talented and they win prizes outside the school. They are very friendly and disciplined.

— **Sumita Ghosh**
Biology

In my one year in this school I have realised that it is extremely organised. There is a mix of students and discipline is inculcated within them. They are very obedient, cooperative and friendly. We have an excellent relationship between the teachers and students.

I have been here for the past two years and it has been a wonderful experience. I am new to the profession and this is my first job. I have learnt a lot here. My co-teachers are friendly and they have guided me a lot. The principal too has helped me and I have never felt like a newcomer here.

— **Kabita Manandhar**
English

I was the first employee to be recruited here after principal ma'am. It has been a marvellous experience and I have literally seen the school grow. We are also growing along with the school. We have very talented students who just need exposure to bloom and grow. This school in Howrah gives them that exposure.

— **Barnali Das**, geography

It has been a year that I started working here and it has been an amazing one. The school is comparatively new and always encourages us to come up with fresh and innovative ideas.

— **Maitree Sahay**
Primary section

I have been around only for a few months and it has been good. Everyone here is very polite and helpful. Teachers need to be patient, sometimes strict and sometimes friendly. We need to understand the children.

— **Shazda Begum**
English, science, maths & SST

It has been two years since I have become a part of the school. I have learnt a lot and we believe in experimenting and learning. We try to make education more interactive. I enjoy a lot with the kids.

— **Zarin Zabi**
English, maths & science

STUDENTSPEAK

I have spent two years in the school and it has been fantastic. We have really friendly teachers and awesome friends.

— **Sneha Banerjee**
Class X

I joined this school last year. And I really like the school. The teachers here have helped me a lot. The school provides us with a lot of facilities beyond textbooks is encouraged here.

— **Sathi Banerjee**
Class X

Biology lab

Swimming

I have been in this school for the past one-and-a-half years. I love my teachers and I am proud that my school is so eco-friendly. We can always go up to our teachers and discuss our problems. I have made many good friends.

— **Annesha Banerjee**
Class X

I joined school this year. One thing I love about it is the teaching methodology our teachers adopt in class. Also, the co-curricular activities are very interesting. I love music and dancing and also swimming.

— **Sukanya Das**
Class IX

In my two years in this school I have learnt so much. The school gives us many opportunities to learn and grow. The scope for co-curricular activities is great. I am learning to swim and I also play badminton.

— **Kathaa Senapati**
Class X

Our school gives us the opportunity to visit many places and attend programmes and learn a lot. My friends are very supportive and the teachers are really friendly.

— **Ritama Mukherjee**
Class X

I have been here since Class V. As a child, I never did like school too much. But that changed after I came here. I get to play football, basketball, cricket and so many indoor games. I also enjoy the swimming lessons. There is a healthy balance between studies and sports.

— **Soumyadeep Bhuinya**
Class IX

I have been in this school for five years and it has been a good experience. Everyone here is very helpful and friendly. Our teachers always try to solve our problems. I love playing basketball, TT, chess etc. I also learn karate.

— **Nidhi Shankar**
Class X

This is my fourth year in the school and teachers are very nice. The co-curricular activities offered are excellent.

— **Animith Srimani**, Class X

The three years in this school have been enjoyable. The teachers point out all the mistakes I make and that helps me work on myself. I have made so many friends. The campus is beautiful and there is so much greenery around. I will miss my teachers and friends after I leave school.

— **Avimanyu Roy**, Class X

I have been a part of the school for the past year. From our teachers to our Group D staff, everyone is very helpful. I have made quite a lot of friends. I play cricket and my school has always supported me in all my activities.

— **Shashwat Kam**
Class X
